22/5/16

With reference to your SRTPV application , approval is herewith accorded for installing Solar RTPV system of 10 kwp on your roof top as per the following terms and conditions :-

1. You are requested to select a reputed system installer\* of your choice, to install the SRTPV System, who have experience in design, supply and installation of SRTPV system and complete the SRTPV system installed on your rooftop building.
2. You have to select an inverter from HESCOM approved & empanelled manufacturers list only (Format-13). The vendors list of inverter manufacturers can be downloaded from HESCOM website. Copy of Test Certificates for having complied with relevant IEC standards of the model shall be submitted (Format - 6C).
3. All the other components of Solar RTPV system shall comply with applicable IS/IEC standards. List attached.
4. You have to upgrade infrastructure (service main, meter with CT, upgrade) wherever required, at your own cost.
5. Bi-directional meter shall be purchased from HESCOM approved vendors (as per HESCOM approved Technical specifications) and to be fixed at net-metering point.
6. Name and address of the HESCOM approved Inverter manufacturers (Format- 13) and Bi-directional Meter vendors (Format-15) is available in the HESCOM website [www.hescom.co.in](http://www.hescom.co.in).
7. At the time of synchronization, the existing metering wiring will be changed to solar power generation side in presence of AEE/EE, MT, HESCOM, Belagavi to measure solar generation.
8. The Applicant shall provide check meter.

9. You are requested to submit the following documents after installation of Solar RTPV system:
- At the time of synchronization, the existing metering wiring shall be changed to solar power generation side in presence of AEE/EE, O&M and MT, HESCOM, Belagavi to measure solar generation.
  - If the grid connectivity is on L.T. Side, the applicant shall fix HESCOM approved L.T. Meter with C.T.'s to read solar generation, as approved by E.E. M.T. Division, HESCOM, Belagavi.
  - For HT installations Bi-directional meter of 0.2s class of accuracy shall be purchased from HESCOM approved vendors (as per HESCOM approved Technical specifications) and to be fixed at net-metering point in consultation with the EE, MT division. Name and address of the HESCOM approved Bi-directional meter vendors (Format-15) is available in the HESCOM website [www.hescom.co.in](http://www.hescom.co.in).
  - For HT installations, if the existing meter cubicle is having 2 element system of 2 CTs, 2 PTs and metering with three wire system, it shall be replaced by 3 element system of 3 CTs, 3 PTs and metering with four wire system.

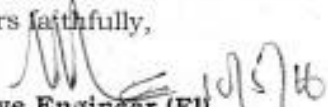

10. You are requested to submit the following documents after completion of Solar RTPV system: →

- Facilitation fee of Rs. 2000/- shall be paid and enclose the copy of receipt. →
- Test Certificate of bi-directional meter from MT division, HESCOM. →
- Inspection Report by CEL, GoK. (For capacity above 10kWp only). →
- Copy of Power Purchase Agreement on Rs.200/- stamp paper with HESCOM. →
- Work completion report from system Installer as per Format-6C. →
- First sheet of Bank pass book containing details of Name of the Bank, Type of account, Account No, Name of the Branch, IFSC code etc.,

\*\*Please note that HESCOM shall not be held responsible for any legal disputes between the applicant and SRTPV system installer arising out of the contract.

This approval is valid for 180 days from the date of this letter and the SRTPV system is to be commissioned within this period, failing which the approval will be treated as cancelled.

Yours faithfully,

  
**Executive Engineer (EI),**  
O & M Urban Division HESCOM, Belagavi

Copy to:-

- 1).The Asst.Executive Engineer(EI), O&M CSD-2, HESCOM Belagavi for information & needful action.
